

VELO SAFE PRO-SERIES "CUSTOM ROAD"

Roadies, and ITU Racing Triathlete: Tired of disassembling your Racing Bike just when you have it dialed in for that next big criterium?

TRIAL 3 SPORTS Custom Road Velo Safe set up eliminates the need to disconnect cable runs, stem, bars, and peddles. Simply pull your wheels off, turn your bars, and place your frame in the case and attach the front fork to the fork mount. Place the bottom bracket on the foam pedestal and secure the chain stays with Velcro straps. Once your frame is secured, place your wheels in the case and attach them to the frame with a Velcro strap. There is plenty of room in the case for your helmets, shoes and other racing gear. The Velo Safe Custom interior measures 48"L x 15"W x 30"H and weighs only 35 lbs.
